Aegis® Nylon Jacket Compounds for Wire & Cable

Aegis® nylon jacket compounds are designed to provide protection from physical and chemical damage during installation and throughout the service life of a wire. When a nylon jacket is used to protect insulation, the thickness of the insulation can be reduced. The resulting smaller outside diameter allows for installation of more wires in a given size conduit.

Aegis® nylon jacket compounds are formulated to offer excellent processability, making them suitable for use on any manufacturing line. As part of a wire or cable construction, Aegis® nylon jacket compounds help enable wire and cable producers to attain UL certifications and markings for their products.

Get proven protection, top performance and trusted, reliable solutions with Aegis® nylon jacket compounds from AdvanSix. From building wire to automotive cable, they are designed to meet your needs for performance, processability and compatibility.

Applications

Aegis® nylon jacket compounds are UL QMTT2- and UL QMTM2-listed wiring components specifically designed for high-performance uses, including in:

- Residential buildings
- Commercial buildings
- Plenum cables
- Machine tools
- Automobiles
- Appliances

Compatibility

Aegis® nylon jacket compounds have been tested to meet ANSI/UL 1581 and ANSI/UL 83 standards, making them interchangeable with other nylon jacket compounds used for Type THHN, THWN and THWN-2 wire, SPT-1 cord, and Types TFN fixture wire and TFFN fixture wire.

Why AdvanSix

Consistent Quality and Reliable Supply. As a dependable, fully integrated manufacturer of caprolactam and nylon resin, AdvanSix is well-positioned to meet your long-term needs for quality nylon jacket compounds that you can count on.

Industry-Leading Research and Development Capabilities. For more than five decades, we have helped customers across industries develop nylon formulations that meet demanding specifications.

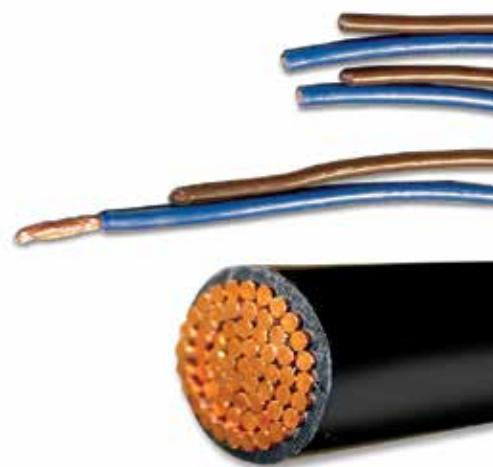

Best-in-Class Customer Experience.

Using Advantaged Chemistries, AdvanSix offers a range of Aegis® resins for a variety of consumer and industrial applications. A focus on innovation, collaboration, safety and reliability make AdvanSix your trusted partner for advanced solutions.

Key Benefits of Aegis® Nylon Jacket Compounds

	Aegis® H55WC01	Aegis® H55WCX	Aegis® H85WC01
Excellent protection from grease, oil and gasoline	•	•	•
Abrasion, cut and impact resistance	•	•	•
Best performance for all line speeds and wire sizes	•		
Extra flexibility for cold and dry environments		•	
Lowest fuming during wire extrusion			•
UL QMTT2 Listed (building wire applications)	•	•	•
UL QMTM2 Listed (plenum cable applications)			•
