

Capran® PIR-2500 Biaxially Oriented Nylon 6 Film

Description

Capran® PIR-2500 film from AdvanSix contains 100% post-industrial recycled (PIR) raw materials¹ while providing the same top performance and processability as Capran® 2500, its standard, non-recycled counterpart.

Capran® PIR-2500 is a 1.0 mil (25 micron) biaxially oriented nylon 6 film that offers a superior balance of properties, including high gas barrier, excellent toughness and puncture resistance, optical clarity, and exceptional flex crack resistance. It is well-suited for packaging applications requiring optimum protection and performance.
